

FPSO WORLD CONGRESS 2023

19 – 22 September 2023 ■ Singapore Expo

DRIVING FPSO PROJECTS ON-TIME
& ON-BUDGET TO OPTIMISE MARKET
OPPORTUNITIES

Welcome TO THE LEADING FLOATING PLATFORM'S INDUSTRY GATHERING

Dear Industry Colleagues,

There is a total of 56 planned FPSO projects between 2023 – 2027, alongside an increase in energy demand and projects across the Oil and Gas sector. At the same time, global players are trying to align with societal pressures of the “energy transition” which takes time, investments and talent to realise.

There is now a huge strain on the industry’s supply chain and shipyard capacity, leading to massive uncertainties around projects that can happen. With orderbooks becoming filled and industry stakeholders struggling with limited resources, FPSO leaders are faced with the stress of getting their planned project in order. This comes alongside an added focus around ESG, with sustainability and worker welfare management taking the front seat in project strategies.

It is now ever critical for industry players to review FPSO project execution strategies, manage supply chain disruption, explore alternative financing and contracting models and effectively manage ESG requirements – all to ensure FPSO projects progress on-time and on-budget.

FPSO World Congress 2023 is the leading FPSO-focused gathering for industry players to explore best practices in integrating ESG and sustainability practices in evolving FPSO project execution, contracting and financing models; managing yard and supply chain disruption; and leveraging digital tools to achieve streamlined operations.

I invite you to explore the hard-hitting topics and discussions we have prepared for you this year, and I look forward to welcoming you in-person this September.

Best Regards,

JAMIE TAN
Portfolio Director
FPSO Network

WHAT'S HAPPENING IN 2023?

300+
Attendees

WHAT'S

New

This year's congress features interesting case studies from Oil & Gas producers across both days. Here are some of the sessions that are not to be missed!

MANAGING WHOLE OF PROJECT LIFECYCLE TO ENSURE THE FPSO BM-C-33 PROJECT IS ON-TIME AND WITHIN BUDGET

Attendees will gain valuable insights into successful project management practices and techniques with Ellen's case study on the comprehensive management of the FPSO BM-C-33 project, spanning its entire lifecycle from development to execution.

She will be sharing her experiences in formulating a robust strategy for timely and cost-effective project execution while navigating ways to improve work-flow and communication between all stakeholders to enable seamless collaboration and maximise efficiency to ensure the FPSO BM-C-33 project's successful delivery on schedule and within budget.

Speaker:
ELLEN M. P. ERICHSEN
FPSO Manager,
BM-C-33 Development Project,
Equinor

ENGINEERING FUTURE-READY FPSOS – PETROBRAS'S PERSPECTIVE

This case study will provide an in-depth look at Petrobras's approach in developing advanced FPSOs for their upcoming projects and plans. Fabricio will share challenges faced in designing and building next-generation FPSOs with integrated lower greenhouse gases emission solutions, as well as the innovative solutions to overcome such challenges.

Additionally, he will also address the delicate balance between standardization and innovation during the concept selection process, offering valuable perspectives for industry professionals seeking to optimize FPSO designs for the future.

Speaker:
FABRICIO BENITES
General Manager, Surface
Systems Engineering,
Petrobras

Maximise YOUR EXPERIENCE AT FPSO WORLD CONGRESS 2023

19 SEPTEMBER 2023

On 19 September 2023, join us at our **FPSO101: Commercial Project Fundamentals** focus day and learn more about building a solid FPSO plan with strong commercial project fundamentals.

20 SEPTEMBER 2023

The main sessions of FPSO World Congress Day 1 will be held on 20 September 2023, and focus will be around FPSO market intelligence and navigating the challenging supply chain and yard disruption; as well as explore alternative solutions around this issue.

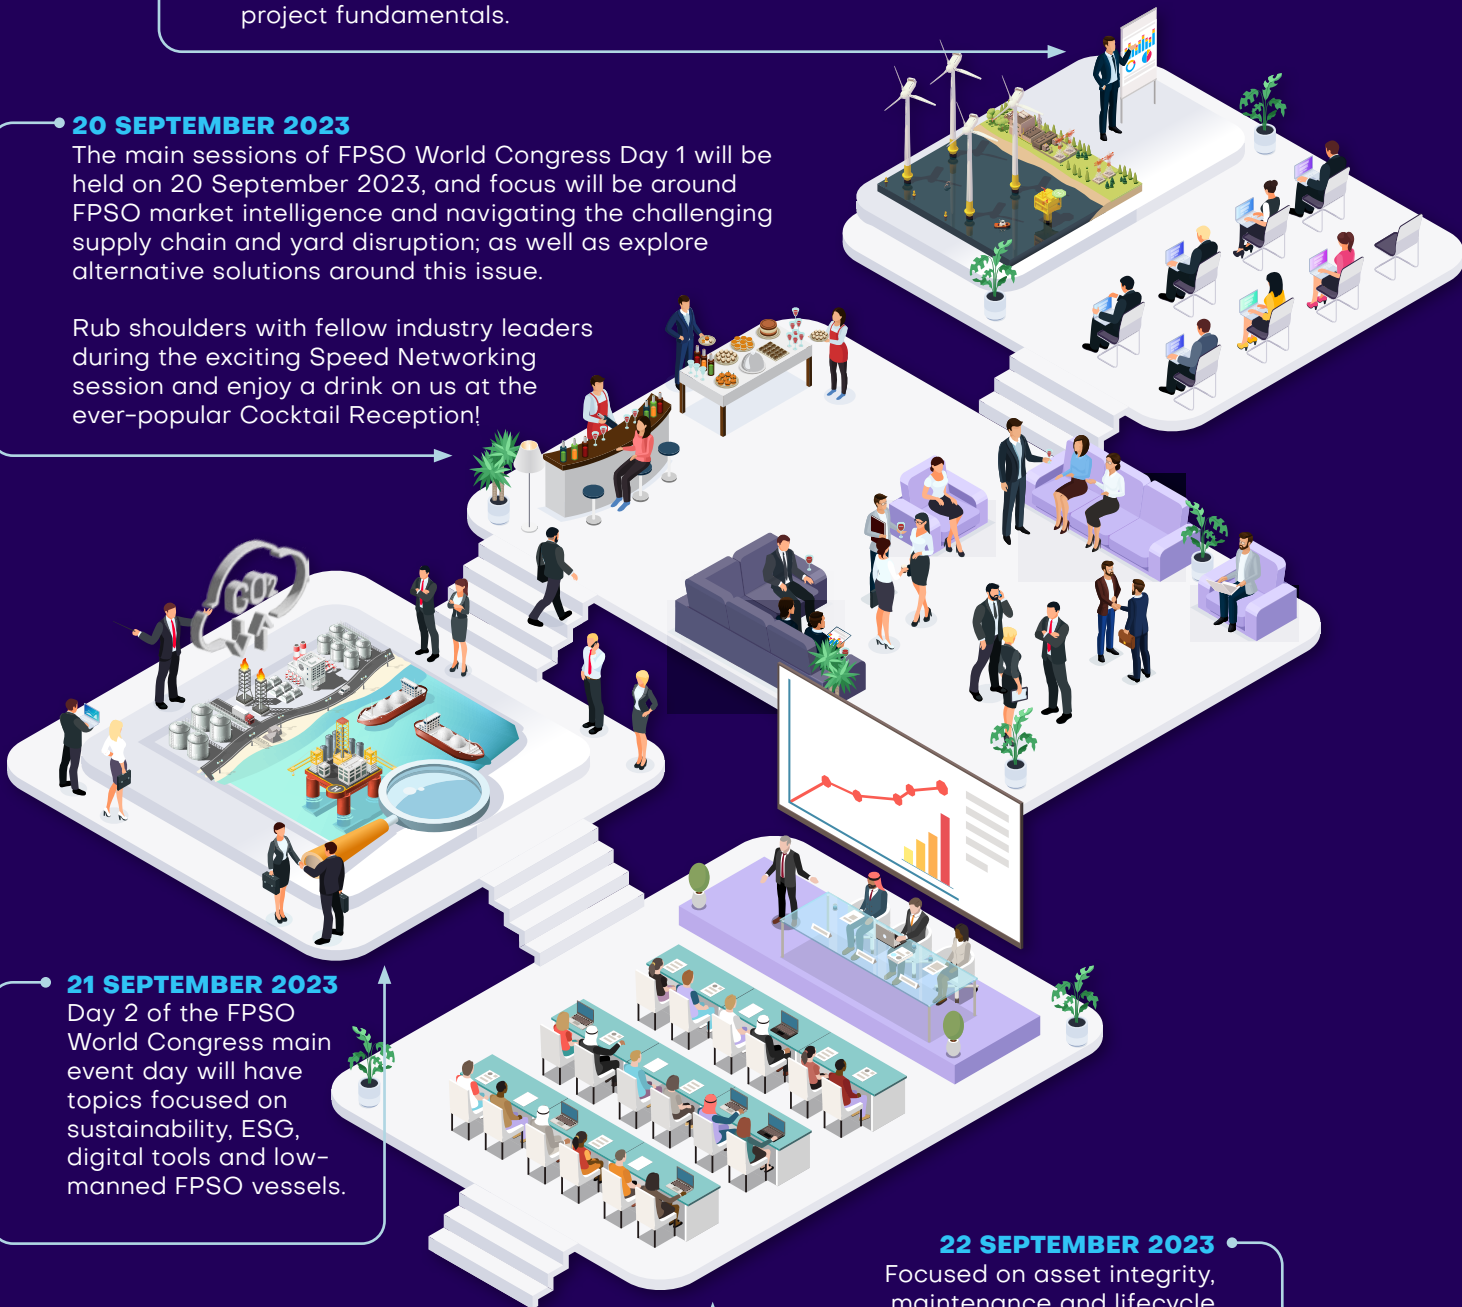

Rub shoulders with fellow industry leaders during the exciting Speed Networking session and enjoy a drink on us at the ever-popular Cocktail Reception!

21 SEPTEMBER 2023

Day 2 of the FPSO World Congress main event day will have topics focused on sustainability, ESG, digital tools and low-manned FPSO vessels.

22 SEPTEMBER 2023

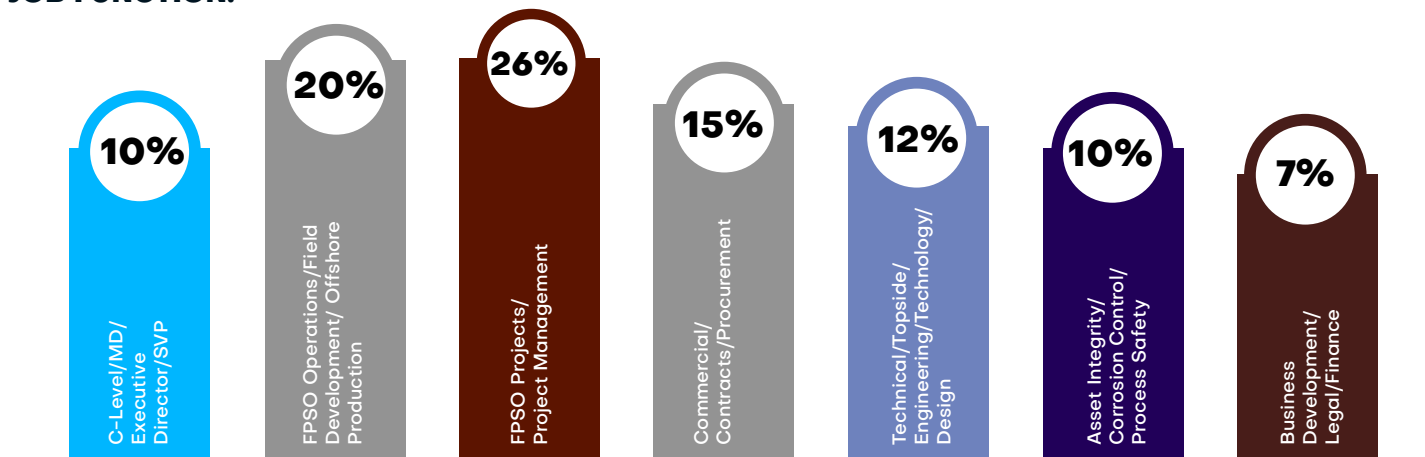

Focused on asset integrity, maintenance and lifecycle extension? Join us at our FPSO AIM & Lifecycle Extension focus day on 22 September 2023 and dive deep into this topic!

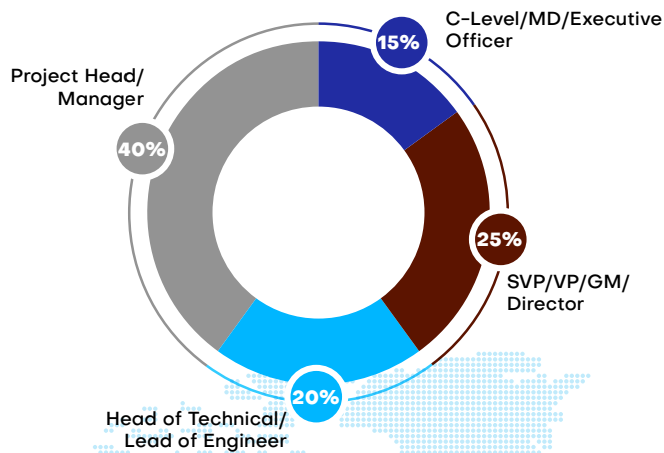

WILL YOU MEET?

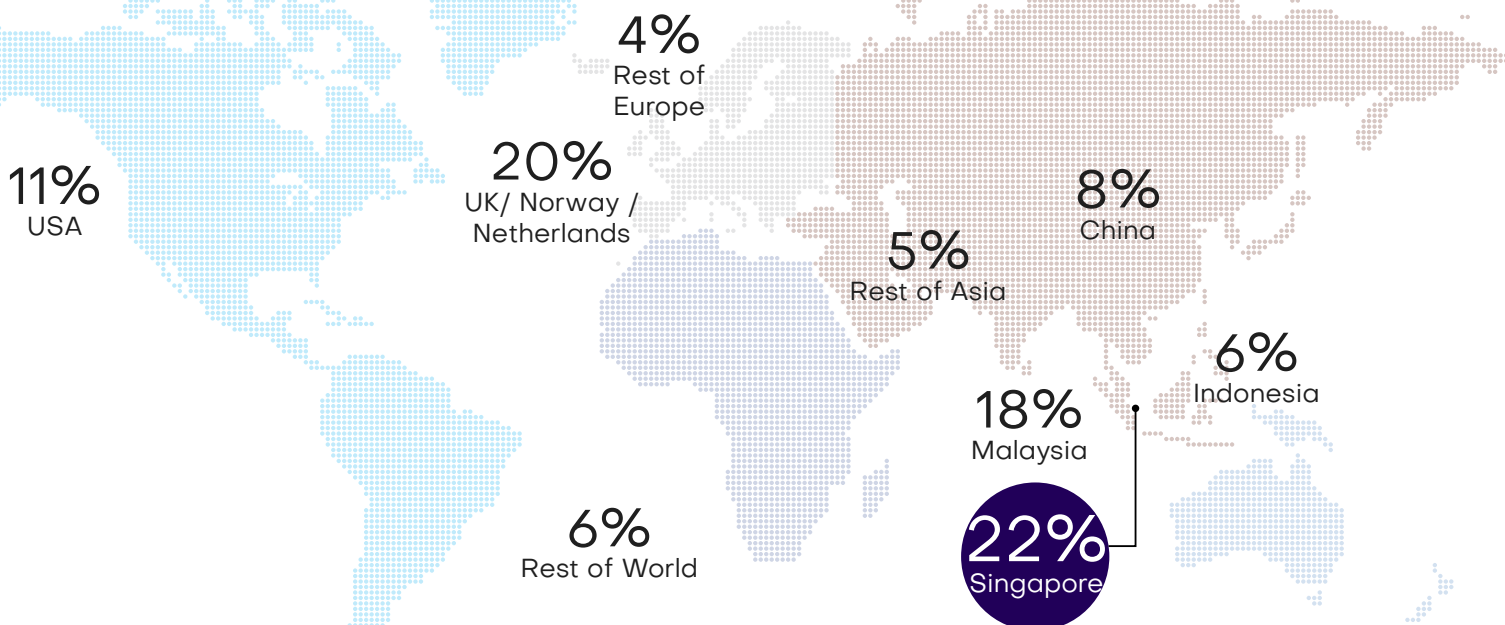

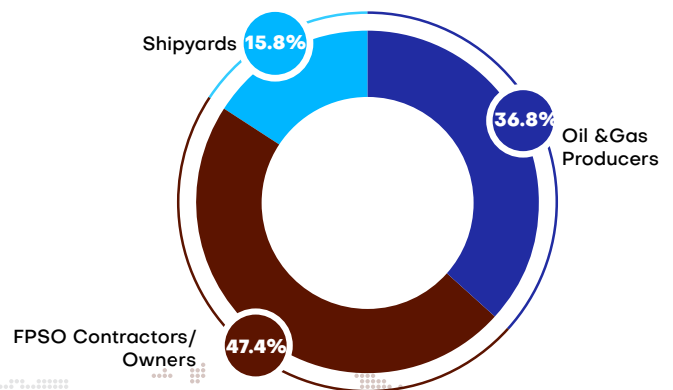

JOB FUNCTION:

JOB TITLE PROFILE:

PRIMARY MARKET:

What you had to say

ABOUT THE FPSO WORLD CONGRESS 2023

“

This is a good forum to connect with people across different companies.”

Senior Lead Process Engineer
MODEC

“

An excellent event, which brought together all the key players in the FPSO sector who collectively provided new ways of more effectively managing our business as part of the global energy mix and transition.”

General Manager- Technical
Bumi Armada Bhd

“

Great place to meet FPSO industry stakeholders to align our industry future and transition to new ways of doing business and helping out the mother earth.”

Project Engineering Manager
Air Liquide

“

The event provides valuable insights on a wide range of topics and good opportunity to network with the industry players.”

Category Management
– **Engineering, Construction & Projects]**
PETRONAS

“

Even if energy transition, oil and gas will play key role also in 2050.”

Chief Engineer
**JX Nippon Oil & Gas
Exploration Corporation**

“

A unique forum to hear perspectives from banks, FPSO operators and equipment suppliers. Challenges and opportunities driven by emission reduction and a need to continue to produce oil and gas in substantial volumes to 2050 to meet energy needs. The transition.”

Business Development Director
Air Liquide

“

FPSO World Congress Singapore 2022 was a great in-person conference post pandemic. Good to get in touch with friends, contacts, industry experts, and contractors to share and learn knowledge. Well organised with significant attendance. Great presentations and informative exhibitions. Thanks to FPSO Network.”

Managing Director
Stellae Energy Ltd.

Stand out

AT THE FPSO WORLD CONGRESS 2023

FPSO investments are projected to reach \$67-billion by 2025 with 20 projects expected to be awarded by the end of the year. This comes alongside a shift in focus on renewable energy, the energy transition and achieving sustainability in projects. Are you strategically positioned to take advantage of changing FPSO project dynamics?

With FPSO stakeholders looking to re-evaluate existing processes in building low-carbon and low-manned FPSOs, there is rising demand for partners that can help solidify their objectives.

1.

THE WORLD'S LEADING FPSO-FOCUSED INDUSTRY GATHERING

The Oil and Gas market is a crowded one – and the FPSO World Congress provides a one-stop platform for you to zone in on opportunities solely for the floating sector. In 2022, the FPSO World Congress also brings industry stakeholders in the FPSO, FLNG, FSRU and Offshore Wind space, all in one place.

2.

ACCESS THE MARKET'S TOP DECISION MAKERS

The FPSO World Congress is a must-attend event for all things FPSO related, bringing together industry stakeholders across FPSO projects, operations, asset integrity, engineering, technology, digital and more from across the globe.

3.

DEMONSTRATE YOUR EXPERTISE AND PRODUCT OFFERINGS

Leverage solution-oriented opportunities to engage with decision makers who want to see, learn and understand how your solutions can add value to their existing – or upcoming – projects.

4.

SOLIDIFY YOUR BRANDING AND PRODUCT POSITIONING

Maximise your exposure and branding in this competitive environment, especially when the industry goalposts are shifting. Bring your brand front-of-mind of your target audience – and those who matter to you.

TAILOR YOUR EXPERIENCE NOW

FPSO World Congress Day One Wednesday, 20 September 2023	
08:00	Morning Refreshments & Registration
08:45	Welcome Address by FPSO Network
08:50	Opening Remarks by Congress Chairperson
The Offshore Energy Market Outlook – Beyond 2023	
09:00	Industry Power Panel Offshore Leaders Speaks: What Keeps Offshore Leaders Awake at Night? <ul style="list-style-type: none"> Capitalising on the rising demand for offshore energy and energy security – while navigating complex market and supply chain uncertainties Discussing the impact of increased carbon emission reporting and what it means for projects Understanding the changing power dynamics of Oil producers, vessel operators and shipyards Exploring best practices in finding – and keeping – talent within the industry Soichi Ide , President and CEO, MODEC Offshore Production Systems Ankit Garg , President, Shapoorji Pallonji Group
09:40	Industry Thought Leadership Reserved for the FPSO World Congress Foundation Event Partner
10:10	Market Intelligence Reviewing the Offshore Energy Market Landscape and What Lies Ahead <ul style="list-style-type: none"> Increasing demand for offshore oil and gas production and identifying hot spots for key projects Evaluating energy transition trends and realistic timelines for the industry Discussing important “new” elements to consider in projects moving forward Binny Bagga , Vice President & Product Manager Service Market Solution, Supply Chain Research, Rystad Energy
10:40 	Speed Networking Session Join us in this Speed Networking Session where you will be able to meet other participants at the Congress! During this session, you will have the opportunity to engage with several leaders in a short amount of time and exchange business cards to take conversations beyond the Congress.
11:00 	Morning Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
FPSO Project Highlights	
11:30	Managing Whole of Project Lifecycle to Ensure the FPSO BM-C-33 Project is On-Time and within Budget <ul style="list-style-type: none"> Reviewing the FPSO BM-C-33 project – from development through to execution Discussing necessary steps needed to formulate an on-time and on-budget project execution strategy Exploring ways to improve work-flow and communication between all stakeholders Ellen M. P. Erichsen , FPSO Manager, BM-C-33 Development Project, Equinor
12:00	Decarbonising FPSO Energy Systems for Today and Tomorrow <ul style="list-style-type: none"> Removing carbon from the systematic FPSO lifecycle equation Accelerating digitalising potential in supporting the energy transition Mapping the journey to green FPU's Senior Representative, ABB
12:30	Driving Efficiency and Innovation in FPSO Projects <ul style="list-style-type: none"> Overview on SBM Offshore's Fast4Ward concept and benefits Discuss key success factors and challenges during implementation Driving further innovation and continuous improvement in the Fast4Ward concept Gilles Lamerie , Group Subcontract Director, SBM Offshore

13:00 	Lunch Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
Overcoming Supply Chain Disruption & Delays	
14:00	Forming Partnerships with Big Shipyards to Build Confidence Between Upcoming Shipyards and Contractors <ul style="list-style-type: none"> Identifying shipyards with complementary strengths, capabilities, and resources Evaluating the benefits and risks of collaboration, including cost savings, knowledge sharing, access to new markets, and potential conflicts of interest Establishing clear goals and expectations for the partnership, such as joint production, research and development, or market expansion Bai Liguu, Project Director, MODEC
14:30	Revolutionising FPSO Operations through Vessel Automation and Digitalisation <ul style="list-style-type: none"> Leveraging automation technologies for enhanced operational efficiency Harnessing digitalisation to drive decision-making for asset optimisation Key factors and considerations in vessel automation and digitalisation implementation Senior Representative, Rockwell Automation
15:00	Managing FPSO Projects On-Time & On-Budget Amidst Scheduling Challenges <ul style="list-style-type: none"> Project planning methodologies and risk mitigation strategies to address potential delays and budget overruns Collaboration and stakeholder engagement for seamless execution Optimising project management and control through innovative technologies
15:30 	Afternoon Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
16:00 	Day 1 Prize Giveaway & Lucky Draw Visit our Exhibition Hall, learn more about partners of the FPSO World Congress and you stand a chance to win prizes proudly sponsored by our partners!
16:10	Managing Supply Chain and Yard Disruption due to the Overloading of FPSO Projects <ul style="list-style-type: none"> Navigating the challenges of managing a situation of project overload Designing robust procurement strategies for optimising supply chain and reducing potential disruption Managing overloading during unprecedented events Muhammad Aziz Alkatiri, General Manager – Projects, Bumi Armada
16:40	Understanding the Changing Dynamics and Critical Success Factors for Project, Yard and Vendor Selection <ul style="list-style-type: none"> Debating the changing supply chain dynamics and how it impacts project/yard selection Managing different local content regulations across the globe and how it affects the FPSO supply chain Building sustainable worker welfare management plans to meet HSSE and ESG targets Exploring alternatives – can other shipyards come into play? Ikhwan Sunoto, Head of Supply Chain Management, EPOMS
17:10	Chairperson’s Closing Remarks and End of Congress Day 1
17:20	FPSO World Congress 2023 – Cocktail Reception

FPSO World Congress Day Two Thursday, 21 September 2023	
08:00	Morning Refreshments & Registration
08:50	Opening Remarks by Congress Chairperson
Future Digital, Connected FPSOs	
09:00	Engineering Future-Ready FPSOs – Petrobras’s Perspective <ul style="list-style-type: none"> • Reviewing upcoming FPSO projects for Petrobras • Overcoming challenges in next-generation FPSO design and build • Integrating lower GHG emissions solutions in FPSOs • Standardisation versus innovation dilemma: Finding the right balance when comparing alternatives during concept selection Fabricio Benites , General Manager, Surface Systems Engineering, Petrobras
09:30	Industry Thought Leadership
10:00	Panel Discussion Creating Smart and Connected FPSOs for Effective Remote Operations <ul style="list-style-type: none"> • Key factors and importance of connected FPSOs to improve remote monitoring efficiency • Benefits of smart and connected FPSOs, including increased automation, improved efficiency and enhanced safety • Financial aspects – Building investment strategies to build smart and connected FPSOs Panellists: Senior Representative, Ceragon Networks Ir Tung Pin Tang , Business Development Manager, SBM Offshore
10:40	 Speed Networking Session Join us in this Speed Networking Session where you will be able to meet other participants at the Congress! During this session, you will have the opportunity to engage with several leaders in a short amount of time and exchange business cards to take conversations beyond the Congress.
11:00	 Morning Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!
11:30	Streamlining Supplier Management through Machine Learning to Enable Efficient FPSO Operations <ul style="list-style-type: none"> • Evaluating the potential of machine learning techniques in optimizing supplier management processes • Enhancing supply chain visibility to drive improved procurement planning • Discuss complexities in execution and implementation Dr. Aya Kusumawardhani , Data and Analytics Manager, Yinson Production
12:00	Smart Technologies for Enhanced Offshore Operations <ul style="list-style-type: none"> • Showcase the evolution of electrostatic dehydration and desalting technologies • Highlight new systems with digital capabilities to optimise overall operating performance • Adoption of smarter technologies to reduce power consumption and carbon emissions and support sustainability efforts Francisco E Vera , Oil and Produced Water Technologies Product Champion, SLB
12:30	Optimising On-Board Operations to Reduce Energy Consumption Cost and Operating Costs <ul style="list-style-type: none"> • Emphasising the importance of energy management in reducing energy consumption • Discussing strategies for optimising energy use, including energy-efficient technologies and best practices for energy management • Overcoming challenges facing the energy and operating costs of FPSOs
13:00	 Lunch Break Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!

ESG & Sustainability Practices in Offshore Projects	
14:00	<p>Bridging the Gap Between Reality and Trends – What Role Does ESG and Sustainability Play in Offshore Projects?</p> <ul style="list-style-type: none"> Placing ESG and sustainability at the forefront of Offshore projects Understanding how these trends impact the feasibility of Offshore projects – and winning bids Balancing ESG requirements and project commercials <p>Reserved for: Satyarranjan Sinha, Head NBFPSO Development Program, MISC</p>
14:30	<p>Discussing the Field Trial of ANGLER® CMF Compressible Media Filter for Solids Filtration Technology Senior Representative, CETCO</p>
15:00	<p>Embedding ESG & Sustainability Practices in FPSO Project Execution and Lifecycle Management</p> <ul style="list-style-type: none"> Evaluating and implementing sustainable design principles in the construction and operation of FPSOs Discussing strategies to reduce environmental impact and minimise carbon footprint throughout the project lifecycle Best practices for sustainable lifecycle management of FPSOs <p>Boris Rijnten, Vice President, Technology, Bluewater Energy</p>
15:30 	<p>Afternoon Break & Refreshments Take a break and use this time to network with your fellow industry peers at our Exhibition Hall!</p>
16:00	<p>Day 2 Prize Giveaway & Lucky Draw Visit our Exhibition Hall, learn more about partners of the FPSO World Congress and you stand a chance to win prizes proudly sponsored by our partners!</p>
FPSO Execution Models – Financing & Contracting	
16:10	<p>Project Financing Panel Discussion Designing Bankable FPSO Projects in the Current Market Climate</p> <ul style="list-style-type: none"> What does a bankable, commercially-viable FPSO project look like? Evaluating the importance of ESG, sustainability and carbon emissions in securing funding Understanding the intrinsic link between project financing and market trends – can the FPSO industry keep up? <p>Panellists: Kheng Sin Chu, Managing Director and Regional Head, Standard Chartered Bank Arthur Tay, Director, Project Financing, MUFG Dorian Delteil, Executive Director, Energy, Renewables, & Infrastructure, DBS Bank</p>
16:40	<p>FPSO Leasing Versus Ownership: Decision Factors, Contracting Strategies and Future Trends</p> <ul style="list-style-type: none"> Discussing possible motivations behind a company’s decision to lease or own an FPSO Examining the balance sheet exposure of leasing vs owning an FPSO Formulating a transparent and cost-effective FPSO leasing strategy <p>Rashid Mirza, General Manager – Commercial, Proposals & Contract Management, Bumi Armada</p>
17:10	<p>Chairperson’s Closing Remarks and End of Congress</p>

Pre-Congress Focus Day FPSO 101: Commercial Project Fundamentals Tuesday, 19 September 2023	
10:00	Morning Refreshments & Registration
10:30	Welcome & Housekeeping Address
10:35	Chairperson Opening Address
10:40	Formulating a Robust FPSO Contracting Model to Earn Stakeholders' Confidence <ul style="list-style-type: none"> Establishing clear and transparent lines of communication between all parties involved in the FPSO projects Use a project management approach to ensure that all parties are working together to achieve the project objectives Developing a comprehensive contract management plan, including performance measurement and dispute resolution Ikhwan Sunoto, Head of Supply Chain Management, EPOMS
11:20	Industry Thought Leadership
12:00	Selecting the right contracting model and framework for your FPSO project <ul style="list-style-type: none"> Assessing traditional lump-sum contracts and alternative models Explore risk allocation and sharing mechanisms between project stakeholders Building contract flexibility and adaptability throughout the lifecycle of the FPSO project
12:40	 Lunch & Networking Break Take a break and use this time to network with your fellow industry peers!
13:40	Overcoming Significant Challenges Faced in Financing Large FPSOs <ul style="list-style-type: none"> Building a clear and concise business plan that outlines the goals, risks and ROI for FPSO projects Assess and manage financial risks associated with FPSO projects Identifying alternative financing options to meet the needs of the project
14:20	Fire-Side Chat Identifying Innovative Financing Models for Upcoming FPSO Projects <ul style="list-style-type: none"> Examine options for securing debt financing from commercial banks, investment banks and development finance institutions Evaluating the feasibility of attracting equity investment from institutional investors and venture capitalists Assessing the potential of carbon credits and green financing options to provide funding for environmentally sustainable FPSO projects
15:00	Chairperson Closing Remarks and End of Focus Day

Post-Congress Focus Day FPSO AIM and Lifecycle Extension Friday, 22 September 2023	
10:00	Morning Refreshments & Registration
10:30	Welcome & Housekeeping Address
10:35	Chairperson Opening Address
10:40	Building Robust Maintenance Plans for FPSO Projects and Vessels <ul style="list-style-type: none"> Combining existing vessel operational and maintenance systems with new applied technologies Analysing the critical components of the system and how it can be improved with technology Discovering disruptive digital solutions that will improve the operations and maintenance
11:20	Industry Thought Leadership
12:00	Optimising Asset Integrity Management Strategies to Maintain Vessels in Class <ul style="list-style-type: none"> Implementing a risk-based inspection program to prioritise maintenance and repair activities Establishing a maintenance and repair program for all structural, mechanical and electrical systems Using condition-based monitoring techniques to detect early signs of equipment failure and take corrective action Ivar Houthuysen, Assets Integrity Director, SBM Offshore
12:40	 Lunch & Networking Break Take a break and use this time to network with your fellow industry peers!
13:40	Leveraging Remote Communication Tools and Infrastructure for More Effective Maintenance and Monitoring <ul style="list-style-type: none"> Understanding the modern telecommunications approach Establishing regular inspection and monitoring programs to identify issues early and prevent unscheduled downtime Review technologies involved in remote maintenance and monitoring Ashok Ramasamy, Senior Telecom Engineer, Shapoorji Pallonji Group
14:20	Maximising FPSO Vessel Shelf Life to Expand Project Capacity <ul style="list-style-type: none"> Conducting a thorough review of all critical equipment and systems to ensure they are installed and commissioned correctly Performing functional and performance tests on all systems and equipment Evaluating and assessing the readiness of the FPSO for operations
15:00	Chairperson Closing Remarks and End of Focus Day
