

Program Showcasing Norwegian Hydrogen Capabilities

Webinar 5 June

8:30 – 10:30 CEST

Agenda

Moderator: Eirik Melaaen, Norwegian Energy Partners

8:30	Opening Norwegian Energy Partners - Eirik Melaaen, Director LNG, Hydrogen and CCUS
8:35	Small to large-scale hydrogen and ammonia production onshore and at sea Aragon - Justas Pleckaitis, Director of renewable energy
8:45	Enabling sustainable, innovative, and fast-track energy solution Econnect - Kaja Kaas, Business development manager
8:55	How IFEs Hydrogen Research Activities may contribute to your value chain IFE - Camilla Røhme, Business developer hydrogen technology
9:05	Solutions maximizing the value of the hydrogen plant ABB - Tor Christian Ystgaard, Head of study department and Hanna Kjøniksen, Account & market responsible for hydrogen & CCUS
9:15	Hydrogen safety analysis Gexcon - Tommy Stokmo Jørstad, Consulting manager
9:25	Large Gas Engines in the Energy Transition,- from Hydrocarbons to Hydrogen Bergen Engines - Leif Arne Skarbø, Senior Principal Engineer, Technologies
9:35	LPV – the game-changing containment solution for large-scale LH2 Lattice International - Jørgen Agerup, COO
9:45	Connecting the world to a clean energy future with Compressed Hydrogen Provaris - Per Røed, CTO
9:55	De-risking complex hydrogen processes Billington Process Technology - Simen Martinsen, Customer advisor
10:05	Delivering integrated solutions for hydrogen and derivatives Aker Solutions – Hans Jörg Fell, SVP hydrogen & derivatives solutions

10:15	REINERTSEN New Energy as Owner's Engineer for hydrogen and ammonia projects REINERTSEN New Energy - Dr. Torkild R. Reinertsen, Chairman & Market Lead Hydrogen and CCS
10:25	Solutions for offshore hydrogen production HydePoint – Elin Steinsland, CEO
10:35	Closing Norwegian Energy Partners - Eirik Melaaen, Director LNG, Hydrogen and CCUS
